**90,218 Hazardous Waste Producers and Treatment & Disposal Facilities  
87,419 With/Top Executive**

This new compilation is based on U.S. Department of Environmental Protection Agency records. To our knowledge, it is the only list available that identifies hazardous waste producers and the executives in charge of that responsibility.

These engineers and executives handle production, refining and transportation of highly toxic controlled substances. They are involved in Oil Spill Control, Energy Conservation, Pesticides & Toxic Substances, Nuclear Energy & Nuclear Wastes, Chemical Testing & Safety Programs, and Regulations & Compliance in Government Agencies.

*This list has proven to be excellent for seminars on EPA guidelines, programs dealing with toxic waste control and safety, and products connected to safety and hazardous waste control.*
